

Start of Care Training for Agency IPC Nurses

This is your EMR training for the Start of Care visit. You will be documenting an entire visit on a practice patient in the PointCare training application. You will need:

- Access to a computer to view the instructional videos
- A tablet to practice entering visit documentation along with the video instructions
- PointCare Training login credentials
- Case Study

If you do not have any of these items, please contact your site leadership. Thank you!

Instructions

Click on the first video below. Your EMR instructor will be displaying their tablet in the video and walking you through the Start of Care documentation from start to finish. You will pause the video as instructed and enter the information provided in the **case study** on a practice patient. Once you've completed all the videos, sync your visit back and alert your supervisor that you've completed this component of your training.
